

ASSOCIATE OF SCIENCE DEGREE

# DegreePlan + Course Guide

---

The requirements for earning an Associate of Science degree from Oklahoma Christian University and TEL Education.

# This Guide Includes

**3** Associate Degree Overview

**4** Course Requirements For This Degree

**6** Printable Checklist

# What is an Associate Degree?

An associate degree is categorized as an undergraduate degree and is usually the first stage taken after secondary school. Associate degrees usually take two years of full-time courses to complete, which is approximately 60 hours of college credit.

These degree programs include a variety of general education courses to give students a solid foundation across several disciplines, such as English, Math, and Social Sciences. Associate degrees also allow students to choose course electives or degree emphases that reflect their personal interests or career goals.

Have more questions about Associate Degrees? Check out our website at <http://degrees.tellearning.org>.

# Oklahoma Christian University

Oklahoma Christian University is a higher learning community that transforms lives for Christian faith, scholarship and service. What began in 1950 as Central Christian College (with an enrollment of 97) has grown into a comprehensive Christian university serving 2,200 students. Affiliated with the churches of Christ, Oklahoma Christian welcomes all students who respect the university's commitment to academic and spiritual excellence and who respect the academic and spiritual pursuits of their fellow students.
